Product datasheet

## Panelboard 22-O Series

22-O Series - Panelboards

Panelboard built on a customized moulded insulator from polyamide material, with tin-plated 99.9% ETP-grade copper busbar and 100% galvanized construction for corrosion resistance.

### KEY SPECIFICATIONS

INSULATOR

**Moulded polyamide**

STEEL FINISH

**100% galvanized**

BUSBAR

**99.9% ETP copper, tin-plated**

FINISH

**Powder coat**

### FULL SPECIFICATIONS

#### CONSTRUCTION

|              |                                                  |
|--------------|--------------------------------------------------|
| Insulator    | Customized moulded insulator, polyamide material |
| Busbar       | Tin-plated copper, 99.9% ETP grade -             |
| Steel finish | 100% galvanized, high corrosion resistance       |
| Fabrication  | State-of-the-art CNC machines -                  |
| Paint finish | Powder coating system -                          |
